## The Environment

6 December 2023, Mavelikara – by Neha Jaleel

The environment can be defined as a sum total of all the living and non-living elements and their effects that influence human life. All living organisms are: animals, plants, forests, fisheries, and birds; while non-living elements include water, land, sunlight, rocks, and air.

Environment is everything that is around us. It can be a living or non-living organism. It includes physical, chemical, and other natural forces. Living things constantly interact with it and adapt themselves to conditions in their environment. There are four types of environments; the atmosphere, rocks, soil, and water.

### The Importance of Protecting the Environment

Protecting our environment is the foundation for sustaining our planet, community, and economy. Our environment supports and houses our ecosystems, allowing us to grow and thrive. If we fail to protect the environment, we will put the lives of humans, plants, animals and more at risk.

To save the environment, let us do our part:

- Reduce, reuse, and recycle.
- Volunteer for cleanups in our communities
- Educate the community.
- Conserve, shop wisely by choosing ecofriendly products, plant trees, separate and dispose of waste appropriately.
- Keep the water bodies free of pollutants such as chemicals, waste dumping, etc.
- Bike or walk more than drive, conserve electricity.
- Have fewer children.
- Reduce plastic use or none at all.
- Dispose batteries, used ink cartridges, digital devices correctly.
- Reduce the carbon footprint.

The increased natural disasters and climate changes we experience today are all results of abuse and overuse of natural resources by humanity. Let us pledge to do our part to keep the world a safe place to live now and for future generations by doing what we can to save our environment.

## Ashly's Dream

6 December 2023, Mavelikara – by Devasree Nair AS, Class 5

Once there lived a girl called Ashly. Every day she will look at the night sky and dreams about going there one day. It was nighttime. She was lying on her bed. Suddenly, she heard a loud sound on the terrace. She slowly reached out and to her surprise, there was a U.F.O parked there. She peeped through the door of the U.F.O and a cute little alien was looking at her.

"Hi Ashly," said the alien. "Oh my! how do you know my name?", "I know everything about you, we are from the planet, Trappist. We have been watching you through a telescope."

"Would you like to come with us?" "Yes, of course!" When she was slowly boarding the U.F.O it started to rise. Then she lost control and started falling down. Thud!! When she woke up, she was on the floor of her room. Then she realised that it was all a dream.

## Special Assembly Launched at School

28 November 2023, Mavelikara - By Anamika Sanup

The school started conducting special assemblies, which encourages all the students to participate in leading the assembly class wise. Those who lead the assembly will initiate exercises, repeat the Pledge, National Anthem, announcements, etc. This includes all the students from KG to Class 6. All the students want to participate; therefore, a class assembly duty comes every two weeks. During assembly the classes took turns to lead out, we started reading relevant news, interesting poems, articles, etc.

## Ball Kicked into the Next Compound

23 November 2023, Mavelikara – by Eswar Hari

Gavin and the others were playing football on a pleasant afternoon. Gavin kicked the ball making it go over the wall into the next property. Everyone was angry with him for what happened. They had to use other small balls and find new games other than football. The farmer who was working in the field felt sorry for the kids playing on the school playground and decided to help. He was a kind man, so he threw the ball over the compound wall back to the kids on the playground. The children were very thankful to him for the kind gesture.

## India lost the Final as Australia Becomes the Champions

19 November 2023, Mavelikara – by Harisankar U

India lost against the mighty Australia in Men's Cricket World Cup Final 2023 at Narendra Modi Stadium, Ahmedabad. India failed to take revenge of 2003 World Cup as Australia defeated India by 125 runs. India won all previous matches of the World Cup.

India lost the toss and Australia was elected to field. India's young star batter Shubman Gill (4 out of 11) was dismissed by Mitchell Starc earlier in the match. As in the previous matches, Rohit Sharma (47 out of 31), the captain, started to hit boundaries very fast. But Rohit was dismissed by Glenn Maxwell in the 9th over. Then Shreyas Iyer (4) was dismissed suddenly. Virat (54 out of 58) and K.L Rahul (66 out of 107) started to bring a good partnership, but Aussies captain Cummins broke that balanced partnership. The other Indian batters; Ravi Jadeja (9), Surya Yadav (18), Shami (6), K.Yadav(10) and Mohammed Siraj (9) performed unbelievably bad, and India finished with a score of 240/10 (50).

Then, in the 2nd Innings, Aussies' lost their 3 wickets of Warner (7), Mitch Marsh (15) and Steven Smith (4) earlier in the powerplay. But Marnus Labuschagne (58 out of 110) and Travis Head (137 out of 120) made a partnership of 192 runs. Glenn Maxwell finished the match as a billion Indians were heart broken.

Aussie's captain Pat Cummins, Josh Hazlewood, and Mitchell Starc with the World Cup trophy.

**ബിരിയാണി**

ഡിസംബർ 6, മാവേലിക്കര -അനാമിക  
സനുപ്

നമ്മുടെ സ്കൂളിലെ കുട്ടികൾക്ക് ഏറ്റവും  
ഇഷ്ടപ്പെട്ട ഭക്ഷണത്തിൽ ഒന്നാണ്  
ബിരിയാണി. സ്കൂളിൽ ഉണ്ടാക്കുന്ന  
ബിരിയാണി വളരെ രുചികരമാണ്.  
അതിന്റെ മണം കിട്ടിയാൽ തന്നെ വായിൽ  
വെള്ളമുറും. ചിക്കൻ ബിരിയാണി,വെജ്  
ബിരിയാണി എന്നിവയാണ്  
ഉണ്ടാക്കാറുള്ളത്. ബിരിയാണിയിൽ നല്ല  
നെച്ചിന്റെ രുചിയും മണവും ഉണ്ടാകും.  
നല്ല വിശപ്പുള്ള ഉച്ചസമയത്ത് ബിരിയാണി  
കിട്ടുമ്പോൾ, അതിന്റെ രുചി ഒന്നുകൂടി  
കൂടുന്നതായി ഞങ്ങൾക്ക് തോന്നും.  
അതുകൊണ്ട് ബിരിയാണി ഉള്ള ദിവസം  
ഞങ്ങൾ പരമാവധി അവധി എടുക്കാറില്ല.
