

Editorial

This is the second edition of '**The Strides Magazine**'. The first edition published as a handwritten magazine. Our children's creativity in writing, reading and imagination all grow through this magazine. Every magazine is an inspiration for growing children. All the teachers, students and non-teachers have worked together to make 'The Strides Magazine' a reality. It can be seen that the children made the most of the opportunities given to develop their skills. There is no doubt that magazines like this are an asset to the new generation.

Happy reading!

Message from the Chairman

Dear Partners,

I am glad the student body and teachers collectively decided to publish the second edition of our yearly magazine “Strides.” Most of you, by this time, know that there is a school newspaper “Trinity Bulletin”, released every two weeks, which is governed by the Language Departments and written and published by the students without any prompt. This endeavour definitely increased students’ ability to participate in public projects and literary activities with elevated enthusiasm.

I hope this edition of “Strides” will further enhance student’s curiosity and literature abilities. Wish you all the best.

C V Titus

Chairman

Message from the Head Teacher

We, at Trinity Adventist Academy, endeavour to provide sufficient opportunities to each student to understand and discover themselves and to face and overcome challenges presented to them to make their school life experience very enriching and memorable. We take pride in helping them grow and develop into responsible, well-rounded personalities of the next generation. Teamwork is the hallmark of Trinity. I appreciate the efforts put in by our wonderful team of students, faculties, and the unstinting support of the Management for bringing out this 2nd issue of 'THE STRIDES' a successful one. In this pursuit of excellence, I appreciate our parent fraternity for supporting the school in every aspect. I am hopeful that with a dedicated and wonderful team of our school community, the school will reach greater heights in all its endeavours in the future."

The Magic Pencil

Once upon a time, there was a little girl named Mia who loved to draw. She would spend hours doodling on paper, dreaming of one day becoming a famous artist. One day, she stumbled upon a magic pencil in her attic. With her magic pencil, Mia drew amazing things that would come to life. She drew a beautiful butterfly that flew around her room, a delicious ice cream cone that she could taste, and even a unicorn that took her on a magical ride. She was thrilled with her new friend, and they had many adventures together. One day, the evil witch who had lost her magical powers came to know about the magic pencil and wanted to take it from Mia. She created a plan and snatched the pencil away from Mia. The witch drew a huge dragon that began to chase Mia and the unicorn. Mia and the unicorn were determined to get the pencil back. They fought the dragon with all their might and finally succeeded in getting the pencil back. The witch disappeared, and Mia kept the pencil safe. From that day on, Mia drew amazing pictures that came to life. She realized that anything was possible with a little imagination and a magic pencil.

The Strides - 2024

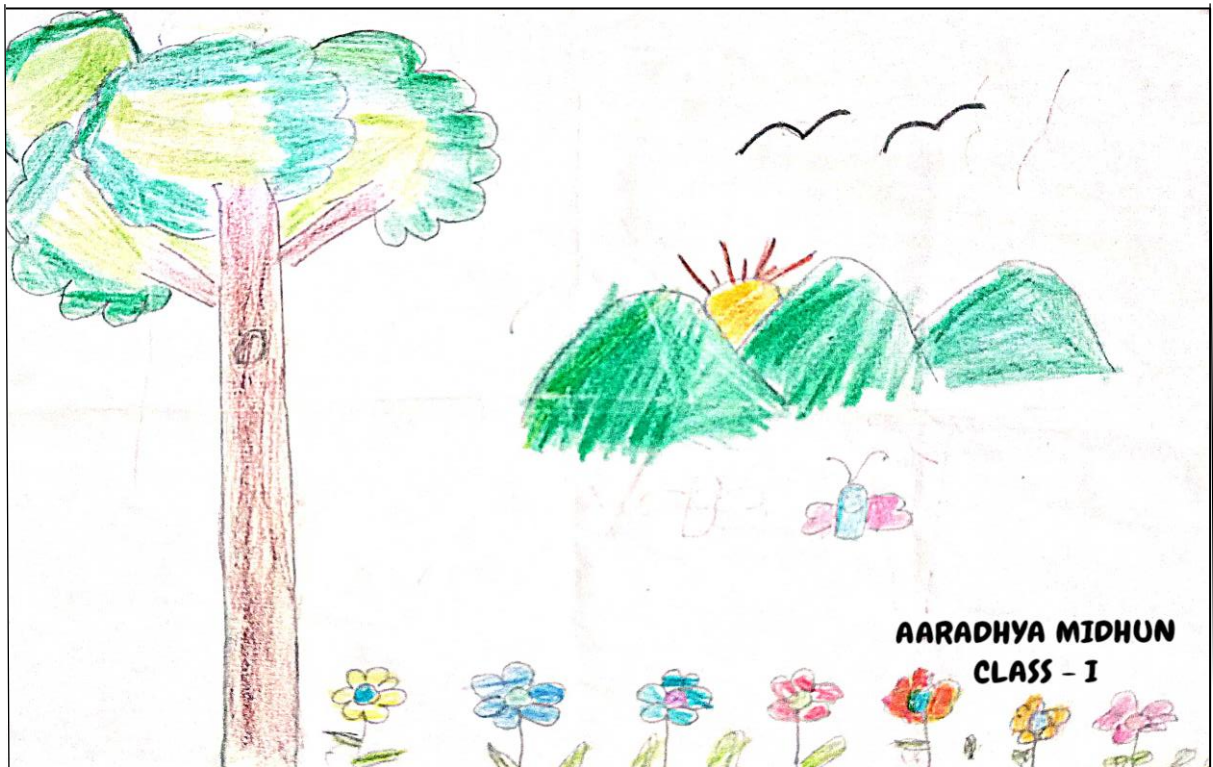

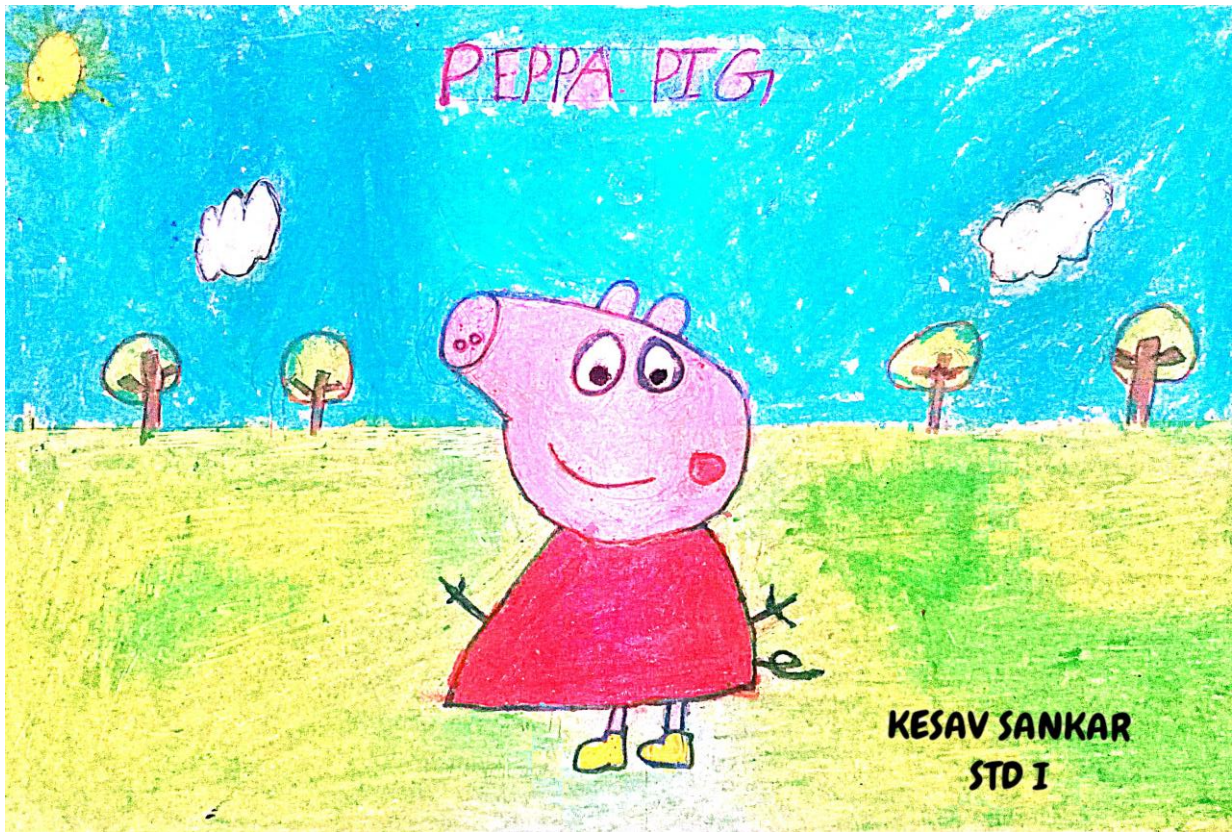

THE SCARY BUNGALOW

Many years ago, there lived a 19 year - old girl named Lara. She was very intelligent and talented. She lived in a small village. In that village, there was an old Bungalow. People in that village believed that, it was a ghost house because at night they could hear some frightening sounds from that direction. But Lara didn't believe it. People were so scared and nobody went to search what was happening at night. Lara always wanted to find out what was happening and why the scary sounds. One day, she decided to explore. At night, she went to that Bungalow and when she opened the door, she started hearing loud voices of a ghost. She got scared and she went back home. But, she discussed this with her family and friends and Lara and friends came to a decision to go together to the Bungalow. Then, on the agreed night, they went to the Bungalow. They heard the same sound that Lara had heard earlier. But, when they went inside the Bungalow, it was pitch dark and nothing could be seen without lights. Her friends didn't think the sound was from a real ghost. Luckily, they had couple of flash lights. They turned on the flash lights and searched the premises. Lara's friend, Ahana found a device which made the scary sounds. They were also able to identify the person behind this mischief and reported it to the police. The police arrested the miscreant while Lara and her friends were appreciated by the police department and people in the village for their brave actions.

School Magazine

The School Magazine is a literary magazine for children which has been published continuously by the New South Wales Department of Education and Communities in its many incarnations since its first issue in 1916. It was originally subtitled 'A Magazine of Literature for Our Boy and Girls'. School Magazine was Established during World War 1, the Magazine was intended to expand the range of reading material available to New South Wales primary school students. Stephen Henry Smith was the magazine's first editor, followed by Doris Chadwick, who held the position of editor from 1922 to 1959. This school has the oldest magazine in Australia and the longest running literary

magazine for children in the world. The magazine has thrived as a showpiece of original writing for children by children from authors in Australia, New Zealand, the US, India, the UK, and a number of Asian, Pacific and African nations. The magazine has played and continues to play a role in fostering new

talents in writing for children. To foster literacy skills, the School Magazine also publishes teaching units, which offers lesson plans and worksheets to assist teachers in maximising the use of the literary material for their students. Our school magazine is called 'The Strides' and it is published once a year. Here is a picture of our first edition magazine.

Why Everybody Should Read Tintin

‘Tintin’ is an amazing book because it helps to learn about new worlds and new words. For those who don’t know, it’s about a young boy named Tintin and his pet.... oh, sorry, his best friend Snowy. Snowy helps Tintin solve many cases and also saves Tintin many times. There are other characters too. For example, captain haddock, always called just captain, professor calculus, the Thomson brothers. Tintin travels to different places like South America, Egypt, Tibet, Australia and even the moon. I hope you will enjoy Tintin as much as I do.

IDIOM

Idioms are expressions with a figurative meaning

Have a wide face	To have many friends
Pull a long face	Look sad or depressed
Cross your fingers	Hoping for good luck
Giving the cold shoulder	Ignore someone
I am all ears	I have your full attention
Call it a day	Time to quit
Draw a blank	Can't remember
Fill in the blank	Provide more information
Have mixed feeling	You feel both pleased and not pleased about it at the same time
Having second thoughts	To change one's opinion; being uneasy about previous decisions
Give it a shot	To try to do something
Pass with flying colors	To succeed at something easily
Mumbo jumbo	Something meaningless or confusing but pretense to make sense

THE UNITED NATIONS

The United Nations is an international organization whose main purpose is to keep the peace between countries.

History of the U.N (United Nation)

The U.N was founded in 1945, but there was an organization before it. It was “League of Nations” but was discontinued as they couldn’t prevent World War II.

Main Aims and Current Wars

There are many more aims for the U.N than keeping the peace between countries. That is one of many reasons U.N has “special agencies of U.N” such as UNICEF, UNESCO, WHO and FAO. There are many wars happening right now, but the two main wars are “Israel and Palestine” and “ Russia and Ukraine.

Special Agencies of U.N

There are many agencies of the U.N but the four main ones are UNESCO also known as United Nations Educational Scientific and Cultural Organization is there to help nations to practice scientific, culture, diversity and educational UNICEF also known as United Nations International Children’s educational Fund is there to help children’s education. W.H.O also known as World Health Organization is there to keep the health in the world, FAO also known as Food and Agriculture Organization is there so that no one goes hungry in the world.

I hope the U.N will stop all wars and keep the mother Earth at peace.

Moon Halo

The moon's halo or lunar halo is an optical illusion that causes a large bright ring to surround the moon. This striking and often beautiful halo around the moon is caused by the refraction of moonlight from ice crystals in the upper atmosphere. Halo moons are associated with high cirrus clouds, which are composed of fine ice crystals. A halo is a ring or light that forms around the moon as light refracts off ice crystals present in a thin veil of cirrus clouds. The halo is usually seen as a bright white-ring although sometimes it can have colour.

This picture was clicked by me when the Moon Halo was visible on 24th November 2023 at 10:00PM.

In folklore, a ring around the moon forecasts bad weather on the way. Moon rings or halos are not extremely rare. The halo is fairly common especially as the weather gets cold. Rings around the moon are caused when sunlight passes through thin clouds of ice crystals high in earth's atmosphere. As moonlight passes through ice crystals, it bends in a way similar to light passing through a lens. The shape of ice crystals causes the moonlight to be focussed into a ring.

On November 24th 2023, night around 10:00PM, there was an interesting sight in the sky as a big halo appeared around the moon. I observed moon halo from my terrace and it was a wonderful experience.

Bluey - My Pet

My pet's name is Bluey. It is a fighter fish. I named it Bluey because it is peacock blue in colour. It likes to live alone. When put with other fishes, it starts attacking other fishes. The fins of Bluey are very beautiful and looks like the feathers of a peacock. My grandfather gifted me this fish because I love animals and fishes. I would like to own another fighter fish and gift it to my sister Mariam and name it Pinky.

An Imaginary Experience.

When I was playing football, I aimed to hit the ball at the goal post to shoot. Then I saw a group of ants walking before me. They told me that "Can you please wait till we go?". I was shocked to see that; the ants were talking to me.

I replied "ok". Then they became friends with me.

Suddenly my mother woke me up. Then, I realized that it was a dream.

Uh.... Oh.... it's already time for school. Bye!!

തിരിച്ചറിവ്

അന്നും സ്കൂളിൽ ബെൽ മുഴങ്ങുന്നത് ദൂരത്തു നിന്നവൻ കേട്ടു. അവൻ ഓടാൻ തുടങ്ങി. പതിവുപോലെ ഇന്നും അവൻ സ്കൂളിൽ എത്താൻ താമസിക്കും എന്നവൻ അറിയാമായിരുന്നു. ഓടി ഓടി അവൻ സ്കൂളിൽ എത്തിയപ്പോഴേക്കും ക്ലാസ്സ് തുടങ്ങിയിട്ട് അൽപനേരം ആയിരുന്നു. ക്ലാസ്സ്മുറിയുടെ വാതിൽക്കൽ നിൽക്കുമ്പോൾ അദ്ധ്യാപകൻ അവനെ തുറിച്ചുനോക്കി. മറ്റുള്ള കുട്ടികളും. അവൻ തലകുനിച്ചു നിന്നു. അദ്ധ്യാപകൻ അവനെ ക്ലാസ്സിലേക്കു വിളിച്ചു. ക്ലാസ്സിൽ കയറിയതും അവൻ കൈ നീട്ടിപിടിച്ചു. പതിവുപോലെ താമസിച്ചു ക്ലാസ്സിൽ എത്തിയതിനു അദ്ധ്യാപകൻ അവനെ അടിച്ചു. അദ്ധ്യാപകൻ വഴക്കു പറഞ്ഞതൊന്നും അവൻ കേട്ടില്ല. പതിവായി താമസിച്ചു വരുന്നതും അടികൊള്ളുന്നതുമാകെ അവനു ഒരു ശീലമായി മാറിക്കഴിഞ്ഞിരുന്നു. നിശബ്ദനയായി കരഞ്ഞുകൊണ്ട് കണ്ണിൽ നിന്നും വന്ന കണ്ണുനീർ തുടച്ചുകൊണ്ട് അവൻ ബെഞ്ചിൽ പോയിരുന്നു. അപ്പോഴും അദ്ധ്യാപകൻ എന്തൊക്കെയോ പറയുന്നുണ്ടായിരുന്നു.

അങ്ങനെ ഇരിക്കെ ഒരു ദിവസം രാവിലെ അദ്ധ്യാപകൻ ഏതോ ആവശ്യത്തിന് തന്റെ സൈക്കിളിൽ ഗ്രാമത്തിൽ പോയി സ്കൂളിലേക്ക് മടങ്ങുമ്പോൾ കുറച്ചു അകലെ ആയി ഒരു കുട്ടി വീൽചെയറിൽ പ്രായമായ ഒരു സ്ത്രീയെ ഇരുത്തി അകലെ ഒരിടത്തേക്കു ഉന്തികൊണ്ട് പോകുന്നത് കണ്ടു. അദ്ധ്യാപകൻ പെട്ടെന്ന് ആ കുട്ടിയെ തിരിച്ചറിഞ്ഞു. ആ കുട്ടിയാണ് എന്നും ക്ലാസ്സിൽ താമസിച്ചു വരുന്നത്. അദ്ധ്യാപകൻ അവനെത്തന്നെ കുറച്ചുനേരം നോക്കി നിന്നു.

അവൻ സുഖമില്ലാത്ത അമ്മയെ കുറച്ചകലെ ഒരു വീട്ടിൽ ഏല്പിച്ചിട്ട് വീട്ടിലേക്കു തിരികെ വന്നു ബാഗും എടുത്തു സ്കൂളിലേക്ക് ഓടി. അന്നും പതിവുപോലെതന്നെ അവൻ സ്കൂളിൽ എത്തിയപ്പോൾ താമസിച്ചു. ക്ലാസ്സ് തുടങ്ങിയിരുന്നു. അദ്ധ്യാപകന്റെ മുൻപിൽ തലകുനിച്ചു കയ്യും നീട്ടി അവൻ നിന്നു. പക്ഷെ അവന്റെ കയ്യിൽ പതിവുപോലെ അദ്ധ്യാപകന്റെ സ്കെയിൽ കൊണ്ടുള്ള അടി വീണില്ല.

അവൻ മുഖമുയർത്തി അദ്ധ്യാപകന്റെ മുഖത്തേക്ക് നോക്കി. അദ്ധ്യാപകൻ കുനിഞ്ഞ ശിരസ്സുമായി നിലകുന്നു. അദ്ധ്യാപകൻ എന്താണ് തന്നെ അടിക്കാത്തത് എന്ന് അവനു മനസ്സിലായില്ല. അദ്ധ്യാപകൻ അവന്റെ മുന്നിൽ മുട്ടുകുത്തി ഇരുന്നു. അടി വാങ്ങാനായി നീട്ടിയ ആ കൊച്ചു കൈ അദ്ധ്യാപകൻ രണ്ടു കൈകളും കൊണ്ട് ചേർത്തു പിടിച്ചു. അദ്ധ്യാപകൻ അവനെ കെട്ടിപിടിച്ചു. ആ അദ്ധ്യാപകന്റെ കണ്ണുകൾ നിറയുന്നുണ്ടായിരുന്നു. അവൻ സ്കൂളിൽ എന്നും താമസിച്ചെത്തുന്നതിന്റെ കാരണം അദ്ധ്യാപകൻ മനസ്സിലാക്കിയിരുന്നു.

A Wise Old Woman

Gyavin Sanal Bhaskar
Class - IV

There was a rich old woman in a village who had lost her eyesight due to an accident. She went to a nearby doctor and consulted him. The doctor was very greedy and he planned to fool the old woman and take away her precious things. As the old woman could not see he took away one after the other things from her house. When the old lady got back her eyesight she found out about the doctor's actions. She did not pay the doctor's fee. When questioned by the doctor, she said, " I told you I want to see like before but I am unable to see my precious things. My house seems empty. How can I pay you when I cannot see like before? " The doctor understood what the old woman wanted to say and returned whatever he had stolen. The old woman now paid his fee as promised.

Moral : Greed will never give you good results.

SACHIN! The Master! Blaster!

Sachin Ramesh Tendulkar (born on 24 April 1973) is an Indian former cricketer who captained the Indian national team. He is widely regarded as one of the greatest batsmen in the history of cricket. Hailed as the world's all-time highest run scorer in both ODI and Test Cricket with more than 18,000 and 15,000 runs, respectively. Tendulkar was a part of Indian team that was one of the joint-winners of 2002 ICC Champion's Trophy. Later in his career, Tendulkar was part of the Indian team that won the 2011 Cricket World Cup. He is the one who scored the most hundreds (100) in the history of international cricket. He started his career in 1989 and retired in 2013. Tendulkar has received several awards from the government of India: The Arjuna Award (1994), The Khel Ratna Award (1997), The Padma Shri (1998), and Padma Vibhushan (2008). After Sachin played his last international match in November 2013 against Pakistan, The Prime Minister announced the decision to award him the Bharat Ratna. He is the youngest person to receive this award. He scored a ton of runs and lead India to victory in most of the matches by combining with Saurav Ganguly and Rahul Dravid. He promoted Mumbai Indians in IPL. He has a son named Arjun Tendulkar, currently playing for Mumbai Indians. Sachin was also a part-time spin bowler who took 200+ wickets in international cricket. So literally, Sachin Ramesh Tendulkar is one of the greatest Indians in history.

My Trip on a Houseboat.

Once we went on a houseboat at Alappuzha. The whole family was there and my cousins too. It was nice there. The boat had a big opening from which you could see the whole area. For some time, we were all sitting and talking. Then, some adults went fishing but unfortunately didn't catch any fish. Then we went to enjoy the view again. We spotted so many interesting things. Then some of the adults rented a speedboat and rode on it. After a while they slowly stopped at a spot and then came for lunch. It was fish fry, rice, etc. We ate it and went to see nature. But because the place where sat to enjoy nature got hot and we couldn't get a nice view. So, my cousin and I started to search around the boat. Then we came across so many rooms and we lay down in one. But we got bored and came down. There I saw my father steering the boat. Then, he called my cousins and I to steer the boat and then he gave a chance to everyone to steer the boat. Then some of the older people went to sleep. Some of the grownups again started fishing. By the evening the trip came to an end. It was late when we got back home.

Chat With a Sailor.

Adriel and Adrina: Hi, we would like to have a chat with you to get some information about ships for our annual school magazine.

Sailor: I would really love to answer your questions and also thank Trinity Adventist Academy for this opportunity.

1) What are the different types of ships?

Ans) There are many types of ships, few of which are .

- a) Tanker ships – These ships carry liquid cargoes like oil, chemicals and gases in liquid form.
- b) Bulk carriers - These ships carry solid cargoes like food grains, steel, mineral ore etc.
- c) Cruise ships – These ships carry people.
- d) Cattle carrier – These ships carry live animals like sheep, goat, camel, etc.
- e) Car/Truck carrier – These ships carry different types of vehicles like cars, trucks etc.

2) Which is the type of ship you work on?

Ans) I sail on oil and chemical tanker ships which carry refined petroleum products and different kinds of chemicals in liquid form.

3) What do you do on ships?

Ans) I sail as Chief Engineer, who is responsible for all the technical aspects related to the smooth operation of the ship.

4) Which is the biggest ship ever built?

Ans) The M.T.Seawise Giant was the largest ship ever built. It could carry around 3 lakh tonnes of crude oil. It is currently out of service.

5) How many engines does a ship have?

Ans) Most of the ships have one or two main engines which are used to propel the ship and another three to four auxiliary engines which are used for providing the necessary electrical power for the ship.

6) From where do you get food and water on ships?

Ans) The provisions are loaded and stored on ships. The galley staff use these provisions to prepare and serve food for all on the ship.

The fresh water required is produced and stored on ships from sea water, by use of different processes like distillation, reverse osmosis, etc.

7) How ships avoid cyclones and rough weather on the seas?

Ans) The ships use weather forecasts to fix the route for a particular voyage. It is sometimes not completely possible to avoid the rough seas. The ships are designed and built considering all these factors which effect it.

8) Which all places in the world have you been to on a ship?

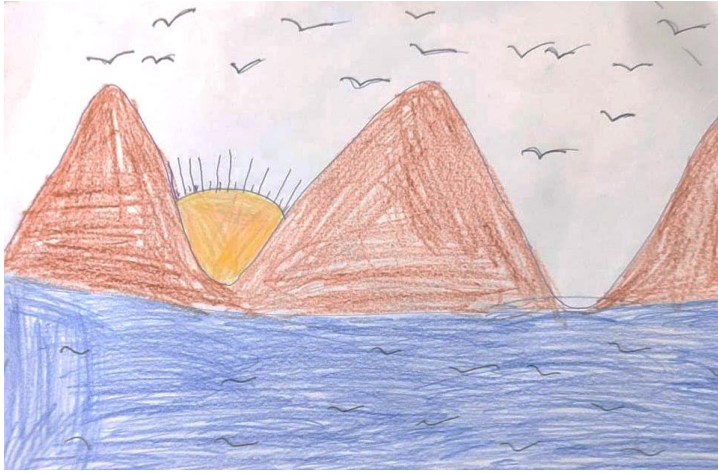

Ans) I have been to all the continents in the world except Antarctica.

9) Do you get to see the different creatures in the sea?

Ans) It is usual to sight dolphins and flying fishes but rare to sight the mighty whales in the seas.

LEONARDO DA VINCI

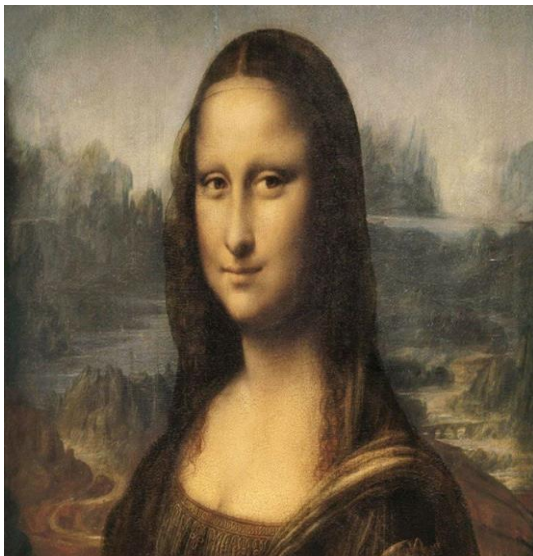

-Biography written by Parikshith Prathapan

Leonardo da Vinci, often simply referred to as Leonardo, was an Italian polymath of the Renaissance period. He was born on April 15, 1452, in Vinci, Italy, and died on May 2, 1519, in Amboise, France.

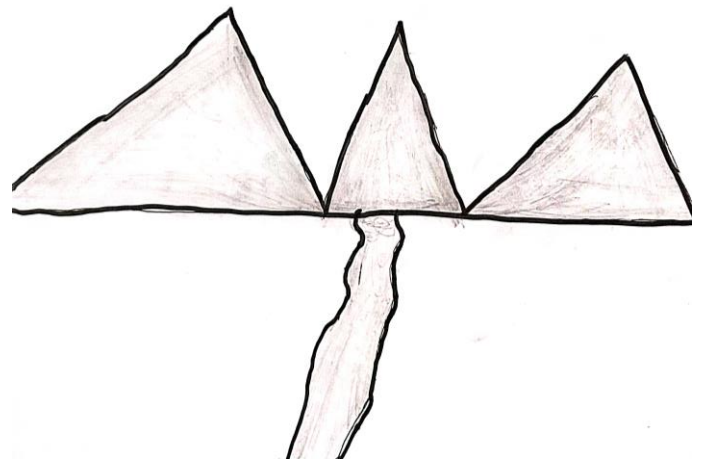

Leonardo da Vinci is widely recognized as one of the most diversely talented individuals ever to have lived. His areas of expertise included painting, drawing, sculpting, architecture, science, music, mathematics, engineering, anatomy, and more. Some of his most famous works of art include the "Mona Lisa" and "The Last Supper."

In Leonardo's later years, he worked in various places around Italy and spent his later years in France, under the rule of King Francis I.

Leonardo da Vinci's contributions to art and science have left an enduring legacy, and he is considered one of the greatest geniuses in history. His work continues to be studied and admired centuries after his death.

MARRIAGE OR BUSINESS...?

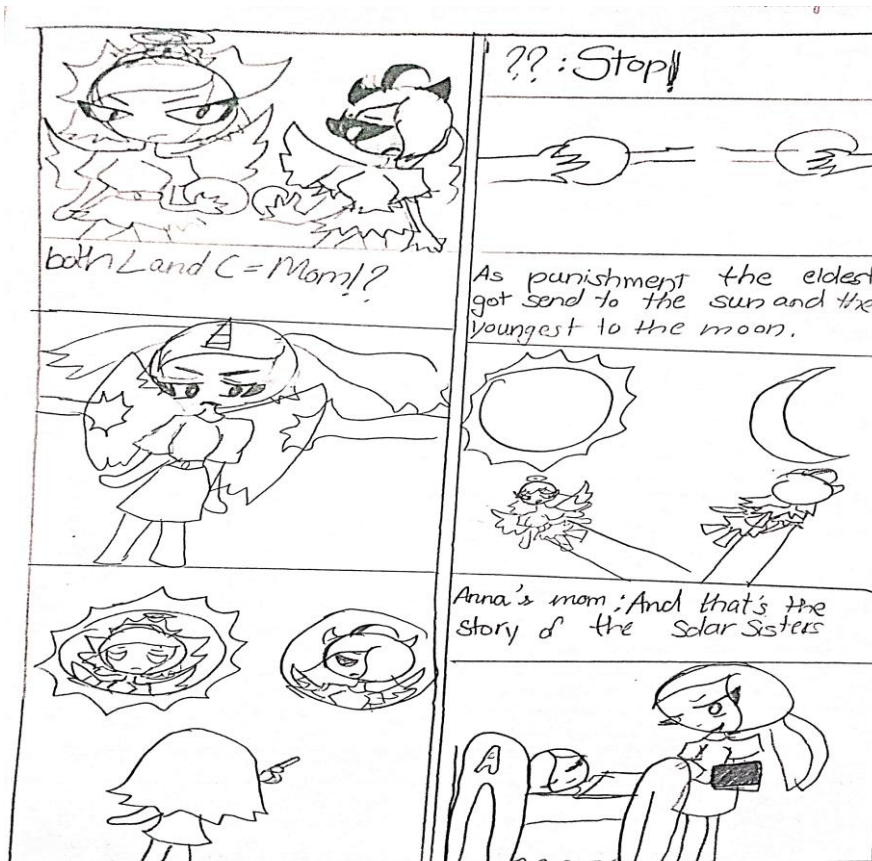

Now a day's girls are like slaves, if her family doesn't have the capacity to give the demanded dowry to her husband's family and they are harassing the ladies. Let me tell you a story about a girl named Dr. Shami. She was a good student and studying well. Her mother was a housewife, and her father was working abroad. Finally, the girl completed medicine. She fell in love with one of her classmates. They got married once she graduated. After two years, Dr. Shami's father died and her husband's family took it as an advantage by demanding 1kg gold and a portion of land along with a luxury car, but they could not afford that. Gradually, Dr. Shami committed suicide due to the harassment she couldn't afford from her husband's family.

Surprised By Stars

Hannah
C-5

Jupiter told them that we should call a meeting of the planets. But Earth said not to disclose it with anyone because there may be some simple explanations to this. Jupiter and Moon agreed. Suddenly they heard a small voice behind them. It was Pluto and he said I think that I know what happened to the stars...

I overheard some of the star saying they are doing something for the planets. For Christmas.

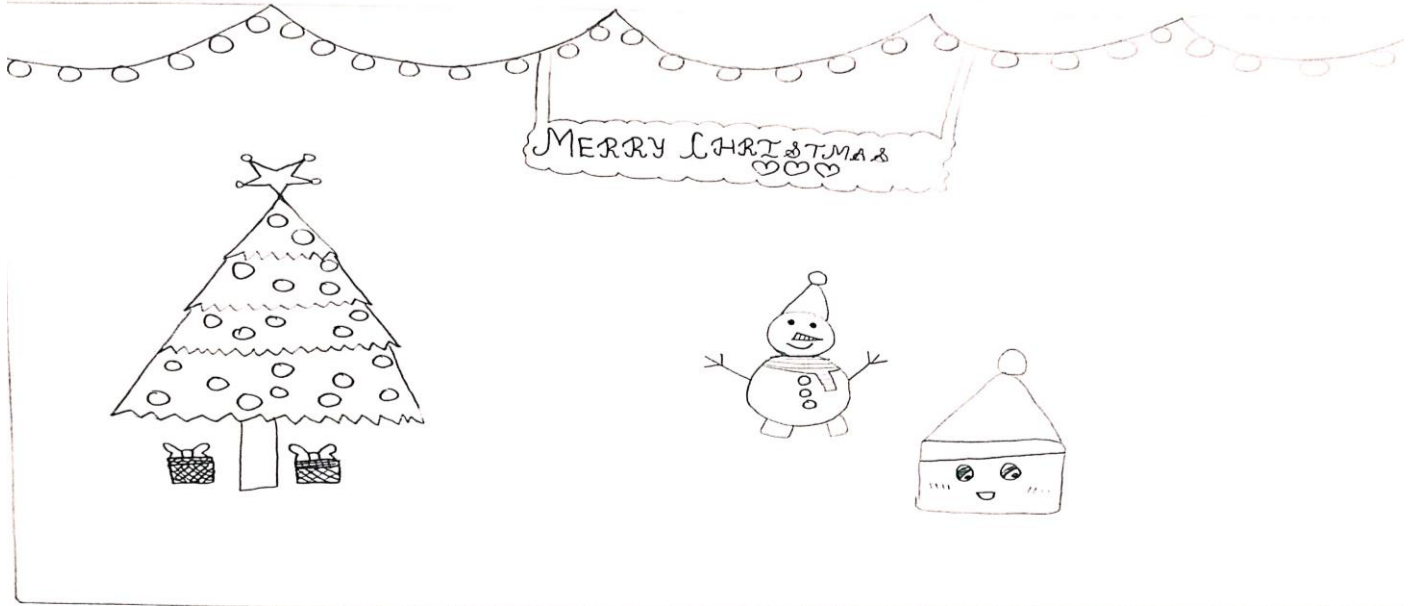

In MILANO PLATINA HALL

Jupiter said that we should call the others. So they went and told everyone. Everyone was super happy and they all set off to MILANO PLATINA HALL.

Part-3

Picture with only party decorations...

The planets enjoyed and thanked the stars.
THE END

The Foolish King

Once there lived a foolish king who always cared about his country. One day the country was filled with water because there was a flood. So, a snake arrived and said, do you know I can predict! Really! The king said So, then say what will happen next month! No! I cannot predict you haven't given me food and gold coins. How much asked the king, the snake said thousands of gold coins. Then the foolish king started to give him food and water. So, one day the king asked, you have to predict now! The snake said, ok first give me the money. The king gave him the money and the snake ran away. Then he went to his bed and saw a note. I am the master of the snake and thank you for giving me money. The king realized then and he never trusted anyone easily.
